## Updated Task Divisions:

William Lewis - Worked on the getting the carousel up and running on the homepage. He also wrote the code for Tourist second and third level pages. Gathering content and images. He also used css to touch up and refine each page. Will also worked on the navigation bar making the drop down functional.

Brian Soe- Worked on resizing images to fit perfectly into all frames. He also worked on getting the homepage to look nice with css and javascript. He was also in charge of writing the html and css code for the second and third level pages of Night Life. Brian also worked on the footer

making sure everything linked together.

Spencer Rothschild - Worked on gathering content and images for the Foodies second and third level pages. Also wrote the code in html and css for these pages. He also made the food by category page a page with collapsibles to easily see different foods. He also worked on branding the homepage and general feel of the entire website.
